# What Was The Renaissance?

**T**he intellectual, cultural and artistic movement known as the "Renaissance" began in Florence, Italy during the 14th Century, and had encompassed all of Europe by the beginning of the 17th Century. The Renaissance was an age of enlightenment, but more over it was an age of education, exploration, and discovery.

The Renaissance movement was inspired by a more secular spirit—less religious—than that of the dark ages. People began to develop a new interest in classical civilization. Laymen and princes encouraged and expected people to learn about poetry, art, literature, and practice in the ways of chivalry. As these new ideas spread throughout Europe, there was a separation from medieval thinking and a re-birth of creative thought, a renewal of classical art, and a revival of classical literature and architecture.

Illustration by A. Bruce Loesch; shop 842-843

The spirit of optimism that this historic movement represents is preserved here at the Minnesota Renaissance Festival. And visitors, one and all, are invited to share in the excitement, beauty, romance, and gallantry that is the Renaissance.

Hall of Scribes (Shop #1205 - at the Water Wheel)

**Glassblowing** - The glassblowers of the Realm await your arrival with bated breath, eager to create wonders from molten glass for your amazement and surprise. Follow the process from the first red-hot blob until the "objet d'art" emerges from the annealing oven.  
Ye King's Glass (Shop #1810)  
Sasglametric (Shop #1233)

**Beekeeping and Water Sculpting** - See a working beehive and have an expert explain the life cycle of bees. Try your hand at making a creative water sculpture of beeswax. Special talent is not required and it's fun for all ages.  
Honey Candles (Shop #215-216)

**Papermaking, Printing and Bookbinding** - The impact of the printed word caused many changes in Renaissance life. Witness rags emerge as paper through a process employing traditional tools and techniques. A wooden lever Gutenberg-style press is used to demonstrate the art of hand printing. Using an inked leather ball and hand-set type, an imprint is made on the paper. Skilled hands sew the pages together to form a completed book.  
Windrose Mill (Shop #120 - at the Water Wheel)

**Brass Rubbing** - A unique opportunity to create your very own historical keepsake. Replicas of monumental brasses are used, all of which are persons and places existing from Medieval and Renaissance periods in England. Rubbings are made by placing white rice paper and heavy black or gold paper over the brass. Heel balls rubbed over the paper make the impression. Techniques of rubbing are explained and demonstrated.  
Brasswood (Shop # 744)

**Musical Instrument Making** - Visit an authentic luthier's workshop to see how harps, lutes and other stringed instruments are made. In keeping with traditional string making, sheep intestines are stretched and twisted, transforming them into musical strings. Watch as intricate knotwork patterns are carefully cut into the soundboard to create the beautiful carved rose or soundhole on the front of each lute.  
Gamut Music (Shop #149-150)

**Metal-Casting Workshop** - A discussion of basic sculpture, wax designing and mold making is followed by the actual creation of an open-face sand-cast design. The next steps are clean-up and torch work, antiquing and buffing. The final step of the demonstration is the joining of the goblet to the stem. For a small fee, you can create a Festival medallion. To do so, you press a "master" form into casting sand to produce an impression. Then, pour molten metal into this "mold." Once the medallion cools you can buff and antique your medallion to complete your very own Festival treasure.  
K Dopita Studio (Shop #152-153)

**Armor Making** - Witness demonstrations of the ancient craft of armor making using traditional techniques. Observe the forging of armor, shields and helmets. Discover the secrets of donning armor, how to wear it, and how to move around in it.

# Renaissance Masters

**he Masters Program** at the Minnesota Renaissance Festival is unique among Festivals and craft shows. Established in 1982 and inspired by the Craft Guildhalls of the Renaissance, the program creates an artistically challenging environment where craftspeople can learn from one another and grow creatively. It provides both a forum for the exchange of ideas and a reward for excellence.

As a first step to being named "Master," a craftsperson must be nominated by a current Festival Master. The nominee's work is then exhibited in the **Hall of Masters** for review. Every aspect of the prospective Master's participation is evaluated, from quality of work and methods of production to display design and costumes.

## 3 Renaissance Masters:

**Sir Gene & Dame Jessica Jaeger**  
**Unicorn Strings Music**  
**Company (Shop #335)**  
*Authentic Bowed Psalteries*

Masters since 1985, Sir Gene and Dame Jessica Jaeger fill the air with music. Their hand-made psalteries are a favorite at our Festival because they are so easy to play! Anyone can learn to play these authentic stringed instruments like a master. The two have always enjoyed making things, but it was not until the lilting sound of the Psaltery that they hit a chord. Sir Gene polished his woodworking skills by building wooden sailboats, but his real dream was to make musical instruments. He and his wife decided to follow that dream, and now continue to build and refine their psalteries into treasures that visitors will value for a lifetime. Sir Gene gets his training in the arts from his experience working in the design department at Illinois State University, and Dame Jessica has a degree in psychology from Beloit College in Beloit, WI.

**Sir James Geerdes**  
**James Geerdes Jewelry**  
**(Shop #732)**  
*Goldsmith and Fine Jewelry designer.*

Named Master in 1983, Sir James has exhibited his fine jewelry at the Minnesota Renaissance Festival since 1978. Specializing in wax carving and "lost wax" casting, Sir James has used his goldsmith and fine metalcraft knowledge to become a self-employed jewelry designer. Sir James draws upon a wide variety of art and career experience. He has worked as a professional photographer, graphic designer, and artist. But it is with his talent as a skilled goldsmith and jewelry designer that he feels at home. Sir James regularly markets his art in his own jewelry store located in south Minneapolis, and has had his works displayed in many art shows across the Midwest.

**Sir H. "Mac" McMillen**  
**Thistle Leather (Shop #424)**  
*Hand Carved Leather Drinking Mugs, Pouches, and other fine accessories.*

Sir Mac was made a Renaissance Master in 1985, and has delighted visitors of the Realm for 17 years by playing his bagpipes in the Festival parade. It was in 1951 that Sir Mac first taught himself how to carve in leather. Originally chosen as a hobby, leather carving is now Sir Mac's main occupation. The art of carving leather is different from simply stamping it—special tools and experience are required to produce the magnificent 3-dimensional effects of the carved pieces. At his shop "The Scottish Croft," Sir Mac has over 90 different designs on display, and he is the only Festival artisan who specializes in hand-carved leather. Sir Mac hails from Kimball, Minnesota, where he is an ordained minister of the Church of Christ. When people journey to our Village to join hands in marriage, it is usually Sir Mac who performs the wedding ceremony.

## Trial By Fire!

**T**he 2,500 degree heat of an authentic, wood-burning kiln bakes the pieces of art, a skilled artisan dramatically throws rock salt into the kiln. In a fulmination of smoke and fire the rock salt rigorously bombards the objects within. Some pieces cannot take the punishment and are destroyed, but the ones that do make it out of the kiln alive are adorned with a texture that sets this pottery apart from the rest.

This "Trial by Fire!" performed by the team of Phil Echert, Paul Morris and Denise Morris is what makes Rock Hard's Stoneware unique. It's true that there are artists out there who can produce, decorate, and mold their own pottery without assistance, but it is very hard for one person to do it all. This talented trio has found that by working together they can become as one. The three work together like music, each utilizing their years of experience to create some of the finest pottery available.

Phil Echert first developed an interest in pottery when he was in high school. From there, he went on to St. Cloud State University where his passion for pottery grew. Then, in 1978, Phil had the unique opportunity to visit Japan. There he learned the ways of the ancient Japanese potters, and quickly became entranced by the craft. Phil arranged a working visa, and worked for a Master Potter in Japan for 2 years. But it was last year that Phil complemented his talents by joining with Paul and Denise Morris

to create a team.

For 22 years, Paul Morris has been making pots. He's worked for several potters before Phil, but it was not until he started working with Phil and Denise that he became energized! Now, Paul feels he has "a mission and a vision" to create art.

Paul's wife, Denise Morris, got her start early. She was a childhood artist, and now skillfully decorates the finest of stoneware with ease. She's a natural,

and uses her decorating talent to express her feelings.

Rock Hard Stoneware, formerly AKA Hige Stoneware, has been at the Minnesota Renaissance Festival since 1984. Recently the shop has seen spectacular changes. It was expanded in 1988, and in the past 3 years the shop has grown to include an authentic, wood-fired kiln and potter's kick wheel. Visitors are encouraged to watch the entire creation of stoneware – from throwing to firing.

## Hall of Masters

**E**ach exhibit at the Hall of Masters is a showcase of all the arts and crafts at the Minnesota Renaissance Festival. The schedule of exhibits varies each weekend, with special focus on selected media. Check the "News of the Realm" for specific information on this weekend's exhibit.

The Hall of Masters is conveniently located near the "Big Bear." It is staffed by helpful, knowledgeable keepers who will be happy to answer your questions and direct you to the shop of the maker of any work which piques your interest.

# Discoveries for Lads and Lassies!

Imagine the Renaissance through the bright eyes of a child. A fantasy world of gallant knights and story-book heroes. The Minnesota Renaissance Festival provides the perfect playground for a child's imagination. Children can meet **Robin Hood and Little John**, and witness a recreation of their famous conflict, or watch brave Jousting Knights on horseback at the New Market Racetrack. In addition, children can frolic in the **Children's Play Village**, and meet several different animals at **Como Zoo** or the **Children's Petting Zoo**.

The Renaissance Festival has many challenging games for children and adults alike: Test your metal in the **King's Academy of Arms - Fencing Ring**, or get lost in the puzzling **Giant Maze**. Try your hand at **Archery & Darts**, or cool off during a hot day with a soaking battle of **dueling buckets**. You can defeat your friends and become **King of the Log**, or mount a flying horse and try to spear a ring out of a ferocious dragon's mouth in **The Sliding Joust**. Or debate personal appearance with the bawdy knaves at **Vegetable Justice**. All of these and much more.
